## The Clarence and Agnes Carlson Memorial Pipe Organ

was

built by Gober Organs of Elora, Canada. Hal Gober and his staff installed the organ during the spring and summer of 2002. This amazing instrument is voiced precisely for our Bethany sanctuary. Over the past 19 years, organists of all skill levels have expressed a great appreciation for the mechanical action of the organ, which allows for greater control of the music by the performer. The organ easily transitions from music of the 1700's to music of today with grace and grandeur.

David Schrader, one of the nation's premiere organists, was the chief consultant for the Bethany Organ Task Force. After playing the completed instrument he stated:

*"The sounds this organ can make under the hands of a good performer are remarkable!"*
