

TALENT SURVEY "RAISE THE RAMS ROOF"

Our congregation has undertaken the school construction project with the help of Laborers For Christ. LFC workers are not coming to build for us - they are coming to build with us. They will be working "full time" to help our congregation realize our project and are willing to work alongside our members to make it happen. They generally work Tuesday through Saturday enabling them to be available to work with us on Saturday, or whenever we commit the time. This survey is to determine available skills we have in the congregation to use to our best advantage. Please take a few minutes to complete the survey and return it to the Building Committee chairperson. One form per volunteer.

Please circle all that apply and fill in all needed blanks.
