

# February/ March Newsletter

I don't know where February went, but we are embarking on March. With all the snow days this year it is going very fast. There are so many things you will see in our room in the coming months. A noisy Construction unit and then we become archeologist as we dig for Dinosaur bones.

We started our Construction unit you may notice Construction in the church as there is a remodel project accruing and the church office is located across from the preschool room until the project is complete. We will end March in the dinosaur unit, before we go on spring break.
