10. There are two options. If using "Instantly Link a Bank Account" (uses your online banking log in) then once this step is completed skip to step 16, or "Manually Enter Account Numbers." Read the information presented and click on "Yes and I Agree." (only one bank account may be linked at any given time)
11. In the next screen, enter your bank account information (typically a checking account since the Federal government limits the number of withdrawals you may make from a savings account each month). Once your information is entered, you will need to enter a validation code that is listed at the bottom of your screen.
12. Great Lakes Scrip Center will deposit two small amounts into the account you entered, which may take a day or two. Once you receive the deposits, take note of both amounts and return to the PrestoPay link on shopwithscrip.com.
13. Enter both two-digit amounts deposited into your account by GLSC.
14. Select a four-digit pin number and enter it again to verify it. Click on "Next."
15. (This step might be obsolete) Now that your account is verified, you will be issued an approval code to give to your coordinator, Darwin Hanson (DarwinHanson@Centurytel.net). This approval code will appear on your shopwithscrip.com account and be sent to you by email. Once you forward your approval code to your coordinator, you will be authorized for online payment. You will receive a second email confirming that your PrestoPay account is active and can be used to pay for shopwithscrip.com orders.
16. Select a four-digit pin number and enter it again to verify it. Click on "Next."
