## Prayer & Praise

- **Praise** the Lord, all nations! Extol him, all people!
- **Praise** God for his promise that those who wait on him will renew their strength.
- **Pray** for restrictions on visa and travel plans be relaxed
- **Pray** for us all to find joy in the waiting.

## Dear Friends and Family,

We all have been waiting for the day when we can look back and see we have come through the COVID pandemic regaining some sense of normalcy. Until then how do we find joy in the waiting?

I have traveled to North Carolina staying on the JAARS Center in Waxhaw where I did training this spring. I am living and working on Center. It has been a blessing to be around so many who have come to furlough here until they can travel.

The joy in waiting for me has been that time seems to have slowed down. The days seem longer. Quality time with family and more meaningful time spent with new friends. Some who will be heading to PNG. (Papua New Guinea)

*Being strengthened with all power, according to his glorious might, for all endurance and patience with joy. Colossians 1:11*

I received an email from Ukarumpa with an update. Due to the Covid-19 they are once again moving my arrival date to March 2021. We are also waiting on the PNG government to resume processing work permits so we can get our travel visas. Thank you for your prayers and support. Robin
