

SEPTEMBER 2015 DEVOTION

Clean Water and Evangelism Ministry \$50,000

“but whosoever drinketh of the water that I shall give him shall never thirst; but the water that I shall give him shall become in him a well of water springing up unto eternal life.” (John 4:14 ASV).

The Bible conveys to us that clean water came from streams, springs or wells. All these were communal. That communal water system is still used in most third world countries today. But with population increases the sources are depleting or becoming contaminated by frequent use by humans, as well as, animals.

We live in a country where clean water is regulated by the government with regular sample tests for purity. How easy it is to turn the handle at the sink for a clean drink or to cleanse our hands. The Lutheran Women’s Missionary League is blessed to fund a grant to Mission Opportunities Short Term (MOST) Ministries for water ministry teams. These teams will deliver, assist in set up, and educate families on how the clean water filtration system works and is maintained. It is through loving concern for a family’s health and well-being that a friendly rapport is established and the knowledge of Jesus Christ - the Living Water - is shared. It is by sharing their clean water with neighbors that each family also shares the message of salvation through Christ, soon a whole community seeks the “Living Water” of Jesus Christ.

Pray for MOST Ministry’s water ministry teams each time you turn on your water tap!

Prayer:

Heavenly Father, we thank You for the volunteers who go on the mission. We ask you to bless their time with the families receiving clean water systems and to make each family bold to share the salvation message with the unsaved in their community so many more may be saved by the “Living Water” of Jesus Christ. In His Name we pray. Amen.
