

Helping Hands Initiative

\$100,000

The Lutheran Church-Missouri Synod (LCMS) National Housing Support Corporation (NHSC) is launching the “Helping Hand” home repair initiative in a U.S. city in the spring of 2016. This rehab initiative is focused on supporting critical home repair needs of low-income, disabled and/or elderly residents near LCMS congregations. It will give congregations a tool to care for their neighbors’ bodily needs while opening doors to provide Word and Sacrament ministry to unreached individuals and families in their community.

Mission Grant Prayer

Dear Heavenly Father, there is a great need for home repair for those who are not physically or financially able. Bless this LWML Mission Grant, Lord. We thank and praise You that this project will enable congregations to reach out to their local neighbors not only in a physical sense, but with concern for their spiritual well-being as well. In the name of Jesus we pray, Amen.
