## MISSION GRANT STORY

**“WE ARE GOD’S WORKMANSHIP” (EPHESIANS 2:10)      \$32,500**

For 132 years Saint Paul Lutheran High School in Concordia, Mo. has been blessed to provide many students with an education in a Christian environment. The school’s goal of nurturing the student’s relationship with Christ while providing a quality education has prepared many young adults for service to the Lord as potential pastors, teachers and lay workers. Currently the student body consists of 45% international students. Desiring to do more to assist international students in preparing for post-secondary education, Saint Paul embarked on the mission of providing financial assistance for students from impoverished countries thereby offering them the opportunity to live and be nurtured

in this Christian environment. The ultimate goal is for these students to be prepared to return to their country of origin ready to share and spread the Good News of salvation through Jesus Christ. This LWML Mission Grant will supplement funds from additional sources to provide this opportunity to young adults who otherwise would not be able to afford the tuition and boarding costs. How blessed the LWML is to be part of this endeavor. The mission grant funds of \$32,500 will go towards providing six international students with an opportunity otherwise unfathomable to them, to be the hands and feet of Christ. With our mites we can assist these young adults in following Jesus’ command to “Go ye therefore and teach all nations”.
