

Grace and peace to you.

I am working thru some information to assist you with the virus pandemic. As of now – I have a few thoughts I'd like to share:

- 1) Contact your insurance carrier to ask if you are covered for continuity of business. Most insurance policies have a rider that should something like coronavirus occur and disrupt business operations you may be covered. If your policy covers it great, if not you are only out a phone call. Make the calls early.
- 2) It is important to make sure you are putting the best interest of students and their families first. We are in uncharted territory, and we all have to work together. Consider your mission, and the needs of students and families, when making decisions.
- 3) COMMUNICATE! Be in communication with your families as you navigate this situation. Even if you do not have all the answers or all the information that people want, stay in communication to let the know you are in process of making plans, or in process of making decisions. Your families will appreciate knowing that you are trying to keep them informed, even while in the decision making process.

I know that Ohio and other states are closing schools. I also know in MN selected schools have closed due to contact with Covid-19. Make sure you are in contact with your public school superintendent so you can stay in the loop.

We are in uncharted territory. Do the best you can – make sure you deliver the power of the Gospel to people who are scared and confused.

I will keep on sending out information as I find it and put it together. Let me know if there is anything I can do for you.

Our prayers are with you!

In Christ,

Rev. Monte Meyer - Mn North LCMS
Mission and Ministry Facilitator - Parish Life and Nurture.
