

Child Wellness Policy

For the safety of our children, members of the congregation with compromised immune systems and volunteers, please note that if your child has had any of the listed symptoms in the last 24 hours we ask that you not bring them into the nursery:

- **Vomiting**
- **Diarrhea**
- **Contagious rash**
- **Yeast infection, monilia, thrush**
- **Impetigo (infected wounds, boils, ringworms)**
- **Runny nose with green or yellow mucus discharge**
- **Any symptom of childhood disease such as mumps, measles, chicken pox, etc.**
- **Use of antibiotics for 24 hours or less**
- **Persistent cough (except in case of allergies)**
- **A fever over 100 degrees**
- **Obvious contagious conditions, such as head lice, pink eye, hand, foot and mouth, strep, etc.**

If a nursery volunteer notices a symptom in your child, please be aware that you may be notified to come and pick them up.

Thank you for your understanding.

Haley Pietsch
Nursery Coordinator/DCE Intern
