

Listening Session with InForm November 3 after worship

Our church has engaged InForm Architecture to work with our Building Team to develop a master plan in order to better align our facilities with the needs of our ministries. We will conduct a Listening Session with the entire congregation to gain input on several topics on **Sunday, November 3** immediately after worship. We encourage everyone to attend.

What to expect:

The session will last approximately 50 minutes. The format will be a post-it-note exercise (no public speaking required!) You will be asked for input on a range of functions that happen in our building, including welcome, gathering, worship, learning and fellowship. The input is anonymous.

What will we do with this input:

The input we receive will be used to develop “word clouds”, a graphic depiction of the comments and the number of times they show up. The word clouds will be shared with the congregation at a later date. We will also use the input gathered to craft project goals.

Your voice is important so please mark your calendar today!

Feel free to reach out to Dave Maurer or any member of the Facilities Visioning Committee, if you have any questions on this.

Facilities Visioning Committee:

Dave Maurer, chair, Tom Askew, Pete Eldridge, Jeanette Field, Pastor Jim Foster, Jen Gatz, Karl Klemm, Tamara Preston, Betsy Stalker, Eli Thomssen
