# Learning Lamp

Preparing children for a lifetime of learning in school and beyond

March was a short and busy month for us! We learned about Jesus' death and resurrection and that we receive eternal life because of His sacrifice. The preschoolers can tell you all about it, ask them!

We also learned about simple machines and how they can help us move heavy things.

This month, we have a new unit to study- all about pets! We have a pet center in the classroom and will have some real pets visit throughout the month. Please email the preschool some pictures of your pets and the kids can share about them. If you have a small pet that you would like to bring for a short visit, let us know!
