

Regarding Recent Changes from the CDC

Members of St. Paul,

COVID-19 infection rates are moving in the wrong direction. Because of this, CDC has just issued new guidance that recommends that everyone attending indoor events wear a mask – whether they have been vaccinated or not.

Our policy at St. Paul is to follow the CDC guidelines.

Because of the new CDC recommendation, your Congregation Council now recommends and expects that, effective immediately, everyone attending the worship services or using the building complies with the new CDC direction and wears a mask whenever they are inside the building.

We thank you in advance for your understanding and compliance with the new CDC recommendations. Hopefully when enough citizens are eligible and willing to get vaccinated, this virus can be brought under control and we can return to a more normal life. Until then, we must take measures to protect the well-being of both our vaccinated and unvaccinated worshipers.

Your Congregational Council July 29, 2021
