## **Grand Total**

\$2,155k

Includes architect's fees + contingency

The above chart shows the estimated project cost for phase 1 (\$1.66M) in column #1.

- If the campaign raises \$800,000, a loan of \$866,000 will be required to complete the phase 1 project. This would require a mortgage payment of \$4,691 per month\*, shown in column #2.
- If the campaign raises \$1M, a loan of \$666,000 will be required to complete the phase 1 project. This would require a mortgage payment of \$3,608 per month\*, shown in column #3.
- If the campaign raises \$1.2M a loan of \$466,000 will be required to complete the phase 1 project. This would require a
  mortgage payment of \$2,524 per month\*, shown in column #4 which represents about a 5% over our 2020 annual budget\*\*.
