COVID-19 HEALTH SCREENING FLOW CHART

Symptoms AND Self-Screening Criteria

One of the following **more common** would mean HAS SYMPTOMS:

- * Fever (100.4+)
- * NEW cough
- * Shortness of breath
- * NEW loss of smell/taste

OR

Two+ of the following **less common** symptoms would mean HAS SYMPTOMS:

- * Gastrointestinal symptoms such as nausea, vomiting, or diarrhea
- * NEW sore throat
- * NEW muscle aches
- * NEW congestion/runny nose
- * NEW severe headache
- * Chills
- * Extreme fatigue/feeling very tired

If you answer “YES” to any of these screening questions and meet the criteria, stay home and away from other people. Contact your health care provider for guidance.

Exposure

COVID-19 Definition of EXPOSURE:

- * If you have been within 6 feet of an infected person for at least 15 minutes from 48 hours before the person began feeling sick until the time the person was isolated.
- * If household has Zion Lutheran School siblings, they would also stay home for 14 days.

Quarantine: stay at home and away from others

Isolate: stay at home and away from others, even those living in the same home
